

QUALITY POLICY

Plummers Industries is a West Australian family owned and operated company, which focuses upon the manufacture, supply and finishing of superior control systems including sheetmetal and spring products which meet customer's specifications and budgets within the resource and industrial sector.

Plummers Industries has developed and maintains objectives in CNC manufacturing techniques, automated metal finishing and project management with special emphasis on assembly and supply of Motor Control Centres and Switchboards to private customers, the mining and building communities, Australian and State Government Departments and Agencies and Local Authorities.

The objective of **Plummers Industries** is to meet all requirements, including to deliver on time, cost effective products at a level of service that meets the diverse needs and expectations of their customers throughout Australia and internationally.

Executive management's commitment to continual improvement of the quality system throughout its operations is the key to meeting this objective and, with the co-operation of all employees and sub-contractors, has established a comprehensive quality management system.

Plummers Industries also recognizes the importance of continuing research, education and commit the entire organisation to consistently meet the requirements of
